Ms. Marlene H. Dortch, Secretary Federal Communications Commission Office of Secretary 445 12th Street, S. W. Washington, D.C. 20554

RE: Submission of information Pursuant to FCC 54.313 Rules and Request for Confidential Treatment – Connect America Fund, WC Docket No. 10-90; Lifeline and Link Up Reform and Modernization, WC Docket No. 11-42

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, Lavaca Telephone Company, Inc. d/b/a Pinnacle Communications ("Pinnacle"), Arkansas, Study Area Code 401704, is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket Nos. 10-90 and 11-42. Pinnacle, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan identified on Form 100, Line 112 and (2) the financial annual report identified on Form 3005, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan is being made pursuant to section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's November 16, 2012 Protective Order in WC Docket No. 10-90 et al. These attachments contain competitively sensitive data that Pinnacle maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Company.

Pinnacle is also transmitting the following information to the Commission in compliance with C.F.R. §§54.313 and 54.422:

- Submission to the Office of the Secretary, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection. Confidential information has been designated in accordance with Confidentiality guidelines and the Protective Order.
- Two copies of the Form 481 filing in redacted form and an accompanying cover letter are also being provided with the confidential filing.
- Two copies of this cover letter and the Form 481 filing with the confidential information are also being delivered to Mr. Charles Tyler, Telecommunications Access Policy Division, Wireline Competition Bureau.

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as an attachment to the FCC Form 481. Pinnacle requests that the information contained in its five-year service quality improvement plan be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Company keeps confidential. Public availability of this information would have a substantial negative impact on the Company. Pinnacle offers the following information pursuant to section 0.459 of the Commission's rules and Exemption 4 of FOIA in support of this request:

- (1) Identification of the specific information for which confidential treatment is sought:
 - Attachment to Line 112 of FCC Form 481 Five-Year Service Quality Improvement Plan. Specifically, confidential treatment is sought for all information in the five-year plan related to the Company's future network plans and information concerning future services provided to customers.
- (2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:
 - The information was submitted in WC Docket Nos. 10-90 and 11-42 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a five-year service quality improvement plan, pursuant to 47 C.F.R. §§54.202(a)(1)(ii) and 54.313(a)(1).
- (3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:
 - The five-year service quality improvement plan contains information on the Company's future plans, number of customers served and other planning information that company does not make publicly available.
- (4) Explanation of the degree to which the information concerns a service that is subject to competition:
 - Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more Internet service providers.
- (5) Explanation of how disclosure of the information could result in substantial competitive harm:
 - Disclosure of the information contained in the five-year plan would provide competitors with detailed, granular information regarding the Company's strategic plans. This would provide competitors access to confidential information they could employ to develop their own plans a particular service area. This could cause competitive harm to the Company.
- (6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Company has continually treated information regarding its network and service plans as confidential and carefully controls the information to protect it from competitors.

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan is not available to the public, and third party access is limited as described in (6) above.

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Company requests that the extracted information be withheld from public inspection indefinitely. The five year planning period information would provide valuable information to competitors for several years beyond that period.

(9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Please contact me if you have any questions.

Sincerely,

Tim Morrissey President 314-605-9220

tmorrissev@fwainc.com

Jim Morrison

FIVE-YEAR QUALITY IMPROVEMENT PLAN

(USAC DOCUMENT - 401704AR112.PDF)

Title 47 §54.202(a)(1)(ii) Five-Year Plan Due: July 1, 2014

Company Name: Lavaca Telephone Company – Arkansas

Company Headquarters: Lavaca, AR

Narrative

LAVACA TELEPHONE COMPANY, INC. QUALITY OF SERVICE AND CUSTOMER PROTECTION PROCESS (USAC DOCUMENT - 401704AR510.PDF)

Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications

QUALITY OF SERVICE & CUSTOMER PROTECTION PROCESSES

- 1. **Available Customer Service Representatives to Answer Phones** 95% of all calls received by Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications during business hours are answered by the third ring. When the assigned customer representatives are unable to answer calls by the third ring, calls are answered by our voice mail system and calls are returned to customers within the hour.
- 2. **Provide After Hours Emergency Customer Service** Calls are answered within 60 seconds by our voice mail system. Calls are reviewed the following day by personnel. Customer service representatives have been given a list of questions by Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications to ask to assist them in resolving many issues. Unresolved issues are worked that day. Issues requiring immediate attention are sent to the Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications service technician on call, who works to resolve the matter as quickly as possible. If that technician is unable to resolve the problem, additional technicians are called. After-hours customer service is also available.
- 3. **Provide a 24/7 Hour Internet Help Desk Service –** All calls are answered within 60 seconds. Managers are available as necessary to review and address any issues.
- 4. **Give Customers Cut-off Warnings & Provide Bill Arrangement Opportunities -** Customers are given nearly two months of missed payments before being cut off. Notification of the payment due date and the cut-off date are prominently displayed on bills as well as of the opportunity to make payment arrangements to avoid being cut-off. A customer service representative will attempt to call a customer in danger of losing service to remind them of the late payment. Account balance reports are printed monthly internally using the company's billing system.
- 5. **Ensure That All New Service Installation Orders Are Fulfilled Promptly** All customers are contacted within 48 hours regarding scheduling the new service installation. If outside plant is already in place, fill the order at the customers' earliest convenience; if outside plant is not in place, fill the order as soon as the weather permits.
- 6. **Minimize Customer Downtime for Services & Make Requested Changes Promptly** Contact customers regarding all service requests the same day, with a goal of resolving all issues within 48 hours. Any unresolved issues will be resolved contingent on the technician/customer coordination of access to the premises.
- 7. **Proactively Monitoring in Case of Major Service Outages** Service technicians will be made aware of outages affecting customers within an hour. It is the goal of Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications to resolve major outages in four hours or less. If an outage has not been resolved within four hours, technicians will begin utilizing all resources, both from within and from without.

CUSTOMER PRIVACY

Company Confidential Information Policy – Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications has a company policy in place that holds employees accountable for a breach of confidentiality concerning customer data and company information. The policy states: "You are reminded that revealing any type of confidential information to unauthorized persons or tampering with or altering company records and/or property is a violation of trust that can result in disciplinary action up to and including discharge."

Company CPNI Policy – Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications also has a Customer Proprietary Network Information (CPNI) policy in place that ensures employee compliance with the FCC's CPNI guidelines. Outlined within the policy is a detailed description of CPNI as well as both acceptable and unacceptable CPNI practices. Employees are required to sign waivers stating they understand and agree to comply with the policy and acknowledge that "failure to protect this information may result in disciplinary action up to and including discharge for the responsible employee." As a part of this policy, Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications has designated a Compliance Officer responsible for assuring training of employees, monitoring CPNI related activities, and reporting breaches.

LAVACA TELEPHONE COMPANY, INC. EMERGENCY SITUATION FUNCTIONALITY – AVAILABILITY OF BACK UP POWER (USAC DOCUMENT - 401704AR610.PDF)

LAVACA TELEPHONE COMPANY, INC. d.b.a. PINNACLE COMMUNICATIONS

EMERGENCY SITUATION FUNCTIONALITY AVAILABILITY OF BACK-UP POWER

Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications has one central office switch and one remote location within its service area. Each of these locations is equipped with a back-up battery supply as well as a generator capable of providing power to the equipment within that office in the event of an external power source outage. After a power outage, generators are inspected and are also professionally serviced bi-annually to ensure functionality.

In addition, Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications has installed back-up batteries on the customer premise equipment. Spare batteries are kept at Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communication's main office for replacement of batteries at customer homes in the event of a prolonged power outage.

TRAFFIC ROUTING

Voice traffic between the central office switch and remote is carried across fiber. Voice traffic between the central office switch and the upstream tandem is also provisioned across fiber.

MANAGING TRAFFIC SPIKES

Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communication's careful capacity planning has put multiple constraints and triggers in place on its Central Office equipment, outside plant equipment, and network backbone that will provide the company with the capability of handling traffic spikes during emergency situations.

Usage rates are analyzed monthly internally by Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications using reports automatically generated by the switch to ensure that usage does not exceed 90% of total line capacity.

Lavaca Telephone Co. Inc., d.b.a. Pinnacle Communications will monitor traffic internally on a monthly basis to ensure optimal efficiency.

LAVACA TELEPHONE COMPANY, INC.

VOICE SERVICES RATE COMPARABILITY

(USAC DOCUMENT - 401704AR1010)

Voice Services Rate Comparability

Lavaca Telephone Company, Inc. d.b.a. Pinnacle Communications - Arkansas

In compliance with the 54.313 Rules, Lavaca Telephone Company, Inc. d.b.a. Pinnacle Communications - Arkansas must certify that its current rate for fixed voice services is no more than two standard deviations above the national average urban rate for voice service. According to the 2014 Urban Rate Survey conducted by the FCC Wireline Competition Bureau, the weighted average unlimited local rate is \$20.46. ¹ USAC Guidelines (Page 56) provide that two standard deviations above the \$20.46 would be \$46.96. ²

The rates shown on the Voice Pricing Form (0700) are below \$46.96. Consequently, Lavaca Telephone Company, Inc. d.b.a. Pinnacle Communications – Arkansas meets the above mentioned requirement.

LAVACA TELEPHONE COMPANY, INC. LIFELINE PLAN

(USAC DOCUMENT - 401704AR1210.PDF)

Lavaca Telephone Company dba Pinnacle Communications Lifeline Plan

Pinnacle Communications offers Lifeline Telephone Service to its customers. The eligibility criteria for Lifeline service is indicated on the attachment. If eligible, a credit of \$9.25 is applied to the charges for the Federal Subscriber Line Charge and Basic Local Exchange Service. The rate for Basic Local Exchange Service for Pinnacle customers in Arkansas, before Lifeline credits, is \$14.15. Pinnacle customers receive unlimited local calling as part of the Basic Local Exchange Service Plan.

No other credits are applied to rates for remaining services, including toll service (if the customer does not have toll limitation service). Lavaca's toll rate plans and prices are attached.

Independent Accountant's Review Report

The Board of Directors Lavaca Telephone Company Lavaca, Arkansas

We have reviewed the accompanying consolidated balance sheets of Lavaca Telephone Company and Subsidiary (an S Corporation) as of December 31, 2013 and 2012, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for the years then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the consolidated financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the consolidated financial statements.

Our responsibility is to conduct the reviews in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the consolidated financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying consolidated financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Our review was made primarily for the purpose of expressing a conclusion that there are no material modifications that should be made to the consolidated financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America. The supplementary information included in the accompanying pages 15 through 19 is presented for purposes of additional analysis and is not a required part of the basic consolidated financial statements. Such information has been subjected to the inquiry and analytical procedures applied in the review of the basic consolidated financial statements, and we did not become aware of any material modifications that should be made to such information.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation: The accompanying consolidated financial statements include the accounts of Lavaca Telephone Company and its whollyowned subsidiary, Pinnacle Communications (collectively referred to as "the Company"). Intercompany transactions and balances have been eliminated in consolidation.

Description of Business: The Company operates a general telephone business in Lavaca, Arkansas with exchanges in Arkansas and Oklahoma. The Company also provides internet, long distance and video services.

Basis of accounting: The Company maintains its accounts in accordance with Part 32 of the Uniform System of Accounts prescribed by the Federal Communications Commission ("FCC"). The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which are consistent in all material respects with the accounting prescribed by the FCC.

Cash and Cash Equivalents: Cash equivalents include all cash balances and highly liquid investments with an initial maturity of three months or less.

Interest-bearing cash balances at financial institutions are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$ for each financial institution. As of December 31, 2013, the Company had approximately \$ in uninsured cash balances at FDIC institutions.

Accounts Receivable and Credit Policies: Accounts receivable consists of amounts due from subscribers, including local service, toll, taxes and applicable fees. Accounts receivable also include amounts due from long distance carriers, access service pools, and cable television, internet, and cellular customers. Accounts receivable are uncollateralized (however, certain customers are required to have a deposit) and due monthly. Accounts receivable are stated at the amount billed. The carrying amount of accounts receivable is reduced by a valuation allowance that reflects management's best estimate of amounts that will not be collected.

Materials and Supplies: Materials and supplies consist of regulated inventory used in the construction of telephone plant in service and nonregulated inventory held for resale to customers. All inventory is stated at the lower of cost, as determined using the average cost method, or market.

Redacted For Public Inspection

LAVACA TELEPHONE COMPANY AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

Investments in Nonregulated Operations: Depreciation on property and equipment used in nonregulated operations is provided by the straight-line method over the estimated useful lives of the related assets. Repairs and maintenance are charged to expense as incurred, whereas major improvements are capitalized. Depreciation expense charged to nonregulated operations was approximately \$ 013 and 2012.

Investment Securities: Investment securities consist of investments in equity securities. Investment securities are classified as available-for-sale and are carried at fair value. Unrealized gains and losses on securities available-for-sale are recognized, net of income taxes, as a direct increase or decrease in stockholders' equity.

Fair Value Measurement: Accounting Standards Codification ("ASC") Topic 820, "Fair Value Measurements and Disclosures" defines fair value as the price that would be received to sell an asset or paid to transfer a liability ("exit price") in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. The hierarchy is broken down into three levels based on the reliability of inputs as follows: Level 1, based on quoted prices for identical assets or liabilities in active markets that the Company has the ability to process, Level 2 based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets, or inputs other than quoted price that are observable for the asset or liability, and Level 3, based on inputs that are unobservable and significant to the fair value measurement.

Property, Plant, and Equipment: Property, plant and equipment is carried at historical cost. Depreciation is provided by the straight-line method over the estimated useful lives of the related assets. Depreciation expense on property, plant and equipment was approximately in 2013 and in 2012.

Recognition of Local Service Revenue: Local service revenue includes charges for monthly local telephone service and settlements from the Federal Universal Service Fund. Revenues are recognized in the month service is provided. Approximately \$ or provided operating revenues in 2013 and \$ of operating revenues in 2012, derive from the Federal Universal Service Fund.

Redacted For Public Inspection

LAVACA TELEPHONE COMPANY AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

Recognition of Access Service Revenue: Access service revenue includes interstate customer end user charges, interstate and intrastate charges assessed to long distance carriers for using the Company's facilities for their long distance communications, and interstate settlements under jurisdictional reporting requirements with the National Exchange Carriers Association. Access service revenue is recognized as earned.

Recognition of Miscellaneous Revenue: Miscellaneous revenue consists primarily of fees received from long distance carriers for billing and collection services performed by the Company and directory revenue, and is recognized as earned.

Income Taxes: The Company's stockholders have elected under Subchapter S of the Internal Revenue Code to report individually the taxable income of the Company. Accordingly, these financial statements contain no provision for income taxes.

FASB ASC Topic 740, *Income Taxes*, requires an entity to recognize a liability for tax positions when there is a 50% or greater likelihood that the position will not be sustained upon examination. The Company is liable for taxes if its initial election as an S corporation was invalid or if it ceases to meet the requirements of an S corporation. The Company believes that its initial election was valid and that it continues to meet the requirements of an S corporation, and that is more likely than not that this position would be sustained upon examination. As such, there is no liability recorded for uncertain tax positions as of December 31, 2013 and 2012.

The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. Management believes it is no longer subject to income tax examinations for years prior to 2010.

Subsequent Events: The Company evaluated subsequent events through May 19, 2014, the date these financial statements were available to be issued.

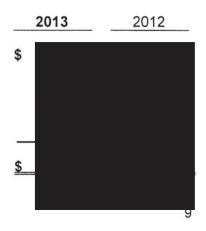

2. INVESTMENTS - OTHER

Investments – other consist of the following:

Internet equipment, net of accumulated depreciation of

Investments deferred to fund compensation agreements (See Note 6)

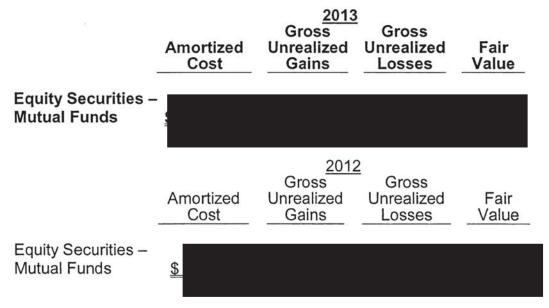

Other

Other investments consist of investments in closely-held entities, accounted for using the equity method, and in which the recognition of losses exceed the original cost of the investment. In 2013, and 2012, the Company recognized losses from these investments of respectively.

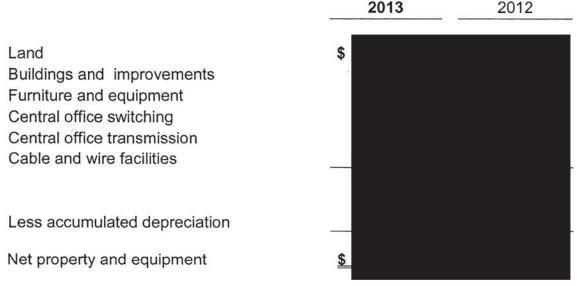

3. INVESTMENT SECURITIES

Investment securities, which are all considered as available-for-sale at December 31, are:

4. PROPERTY, PLANT AND EQUIPMENT

Following is a summary of property, plant and equipment at December 31:

LONG-TERM DEBT

Long-term debt consists of the following:

6 note payable to Benefit Bank, due in monthly installments of approximately sincluding interest, with a final balloon payment due September 1, 2015. Real estate of the Company are pledged as collateral.

Less current maturities

\$
Maturities of long-term debt are as follows:

2014
2015

\$

6. OTHER NONCURRENT LIABILITIES

In 2012, the Company entered into deferred compensation agreements with certain of its officers that provide for payments upon their retirement. Other noncurrent liabilities consist of the obligations under these agreements.

The Company has funded these deferred compensation obligations with certain investments totaling approximately \$ at December 31, 2013 and \$ at December 31, 2012. (See Note 2)

7. FAIR VALUE MEASURMENTS

ASC Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value is based on the following valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 as compared to those used at December 31, 2012.

Mutual funds: Valued at the net asset value of shares held by the Company at year end. The net asset value is equivalent to the closing price reported on the active market on which the individual securities are traded.

Investments to fund deferred compensation agreements: Valued at the quoted market prices of the underlying investments included in the master trust.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Company's assets recorded at fair value on a recurring basis as of December 31, 2013 and 2012:

Investments at Fair Value as of December 31, 2013

Investments at Fair Value as of December 31, 2012

8. RISKS AND UNCERTAINTIES

The Company services various local telephone exchanges in Arkansas and Oklahoma. The Company is subject to rate regulation by the Federal Communications Commission and the Arkansas and Oklahoma Corporation Commissions. The telecommunications industry is moving into a competitive environment with new competitors and required restructuring of revenue from access charges and support mechanisms.

The subject is controversial and difficult to resolve. Therefore, at this time, the impact of such changes both from Federal and State Commissions cannot be determined.

The Company is also subject to audits from federal and state oversight organizations because of its participation in certain high cost funding mechanisms. At this time, the Company does not expect any such audits to have a material effect on its financial statements.

LAVACA TELEPHONE COMPANY AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

In November 2011, the Federal Communications Commission ("FCC") released the "USF/ICC Transformation Order" (the "Order") and "Further Notice of Proposed Rulemaking" ("FNPRM"), with the stated objective of reforming and modernizing the universal service and intercarrier compensation systems.

To date, numerous petitions for reconsideration of certain aspects of the Order and FNPRM have been filed by certain affected companies and telecommunications industry organizations. In addition, in February 2012, the FCC issued a further order to revise and clarify certain rules of the Order, and to modify certain requirements of the Order. This further order also stated that the above mentioned petitions for reconsideration are pending before the FCC and will be addressed by the FCC.

The final resolution of the above-mentioned petitions for reconsideration and their effect on the ultimate provisions of the Order is unknown at this time. As a result, the effect of the Order on the Company's intercarrier revenues and universal service revenues is not known at this time.
